

# Fast Lossy Compression of 3D Unit Vector Sets

## Supplemental Material

Sylvain Rousseau    Tamy Boubekeur  
 LTCI, Telecom ParisTech, Paris-Saclay University

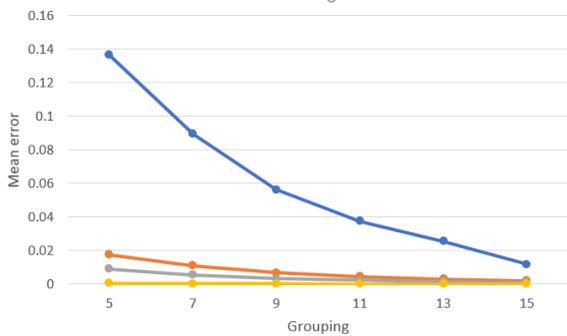

Following results have been computed using 10 million random unit vectors. "SF" is the abbreviation for spherical Fibonacci point set quantization. Others abbreviations come from the survey [Cigolle & al. 2014].

### Result on additional quantification methods, grouping with 13 bits.

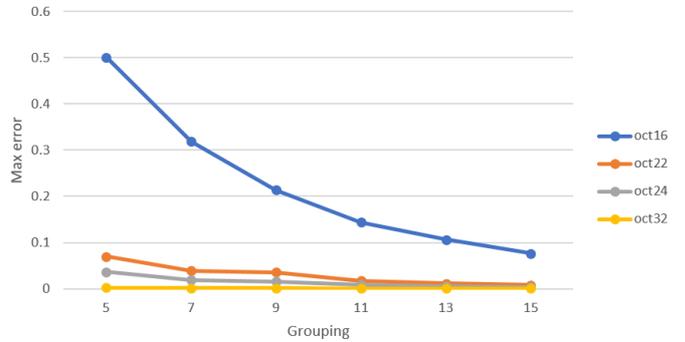

| Method    | Bits | Mean error (°) | Max error (°) | Mean error with mapping (°) | Max error with mapping (°) | Compression (sec) with mapping | Decompression (sec) with mapping | Compression Ratio with mapping |
