

PUBLICATION LIST

of Jacques Sakarovitch

April 2018

0.— Books and chapters in books

- [1] Subwords, Chapter 6 in *Combinatorial Problems on Words*, M. Lothaire ed., Addison Wesley, 1983. Reprint, Cambridge University Press, 1997.
Joint work with I. Simon.
- [2] *Manuel d'Informatique, Logique et Automates*, Ellipses, 1998.
Joint work with P. Bellot.
- [3] *Éléments de théorie des automates*, Vuibert, 2003. 832 p.
- [4] Introduction to the theory of finite transducers, in *Physics and Theoretical Computer Science* (J.-P. Gazeau, J. Nesetril, B. Rován, eds), IOS Press – NATO Science Series, 2007, 171–188.
- [5] The universal automaton, in *Logic and Automata, History and Perspectives* (J. Flum, E. Grädel, Th. Wilke, eds) Amsterdam Univ. Press, 2007, 457–504.
Joint work with S. Lombardy.
- [6] *Elements of Automata Theory*, Cambridge University Press, 2009. 782 p.
(Corrected English edition of [3]). Translation by Reuben Thomas.
- [7] Rational and recognisable power series, in *Handbook of Weighted Automata* (M. Droste, W. Kuich, H. Vogler, eds) Springer, 2009, 105–174.
- [8] Number representation and finite automata, in *Combinatorics, Automata, and Number Theory* (V. Berthé, M. Rigo, eds) Cambridge University Press, 2010, 34–107.
Joint work with Ch. Frougny.
- [9] Automata and expressions, in *AutoMathA Handbook* (J. E. Pin, ed), European Mathematical Society, to appear.

1.— Journals

- [10] Monoïdes pointés,
Semigroup Forum **18**, 1979, 235–264.
- [11] Sur une propriété d'itération des langages algébriques déterministes,
Mathematical System Theory **14**, 1981, 247–288.
- [12] Description des monoïdes de type fini,
E.I.K. **17**, 1981, 417–434.
- [13] On the Hotz group of a context-free grammar,
Acta Informatica **18**, 1982, 109–115. Joint work with Ch. Frougny and E. Valkema.
- [14] Deux remarques sur un théorème de S. Eilenberg,
RAIRO Informatique Théorique **17**, 1983, 23–48.
- [15] Recurrent words for substitutions,
Mathematical System Theory **17**, 1984, 199–215. Joint work with Y. Kobuchi and T. Nishida.

- [16] A problem on rational subsets of the free group,
Amer. Math. Monthly **91**, 1984, 499–501.
- [17] Une application de la représentation matricielle des transductions,
Theoret. Comput. Sci. **35**, 1985, 271–293. Joint work with J.E. Pin.
- [18] On the complexity of some extended word problems defined by cancellation rules,
Information Processing Newsletter **23**, 1986, 281–287. Joint work with M. Benois.
- [19] Easy multiplications I. The realm of Kleene’s theorem,
Information and Computation **74**, 1987, 173–197.
- [20] On regular trace languages,
Theoret. Comput. Sci. **52**, 1987, 59–75.
- [21] Finiteness conditions on subgroups and formal language theory,
Proc. London Math. Soc. **58**, 1989, 74–88. Joint work with Ch. Frougny and P. Schupp.
- [22] Easy multiplications II, Extensions of rational semigroups,
Information and Computation **88**, 1990, 18–59. Joint work with M. Pelletier.
- [23] Synchronized rational relations,
Theoret. Comput. Sci. **108**, 1993, 45–82. Joint work with Ch. Frougny.
- [24] Synchronisation déterministe des automates à délai borné,
Theoret. Comput. Sci. **182**, 1998, 61–77. Joint work with Ch. Frougny.
- [25] A construction on finite automata that has remained hidden,
Theoret. Comput. Sci. **204**, 1998, 205–231.
- [26] On the representation of finite deterministic 2-tape automata,
Theoret. Comput. Sci. **225**, 1999, 1–63. Joint work with M. Pelletier.
- [27] Automatic conversion from Fibonacci numeration system to golden mean base, and generalization,
Int. J. of Algebra and Computation **9**, 1999, 351–384. Joint work with Ch. Frougny.
- [28] Two groups associated with quadratic Pisot units,
Int. J. of Algebra and Computation **12**, 2002, 825–847. Joint work with Ch. Frougny.
- [29] Squaring transducers,
Theoret. Comput. Sci. **292**, 2003, 45–63. Joint work with M.P. Béal, O. Carton and Ch. Prieur.
- [30] The finite power property in free groups,
Theoret. Comput. Sci. **293**, 2003, 55–82. Joint work with F. d’Alessandro.
- [31] Introducing Vaucanson,
Theoret. Comput. Sci. **328**, 2004, 77–96. Joint work with S. Lombardy and Y. Régis-Gianas.
- [32] Derivatives of rational expressions with multiplicity,
Theoret. Comput. Sci. **332**, 2005, 141–177. Joint work with S. Lombardy.
- [33] How expressions can code for automata,
RAIRO - Theoret. Informatics and Applications **39**, 2005, 217–237.
Joint work with S. Lombardy.

- [34] Sequential ?,
Theoret. Comput. Sci. **356**, 2006, 224–244. Joint work with S. Lombardy.
- [35] Weighted automata with discounting,
Information Processing Letters **108**, 2008, 23–28. Joint work with M. Droste and H. Vogler.
- [36] Powers of rationals modulo 1 and rational base number systems,
Israel J. Math. **168**, 2008, 53–91. Joint work with S. Akiyama and Ch. Frougny.
- [37] Radix enumeration of rational languages,
RAIRO - Theoret. Informatics and Applications **44**, 2010, 19–36.
Joint work with P.-Y. Angrand.
- [38] Lexicographic decomposition of k -valued rational relations,
Theory of Computing Systems **47**, 2010, 758–785. Joint work with R. de Souza.
- [39] Corrigendum to our paper: ‘How expressions can code for automata’,
RAIRO - Theoret. Informatics and Applications **44**, 2010, .
Joint work with S. Lombardy.
- [40] On the number of broken derived terms of a rational expression,
J. of Automata, Languages and Combinatorics **15**, 2010, 27–51.
Joint work with P.-Y. Angrand and S. Lombardy.
- [41] The validity of weighted automata,
Int. J. Algebra and Comput. **23**, 2013, 863–914. Joint work with S. Lombardy.
- [42] The signature of rational languages,
Theoret. Comput. Sci. **658**, 2017, 216–234. Joint work with V. Marsault.
- [43] Trees and languages with periodic signature,
Indagationes Mathematicae **28**, 2017, 221–246. Joint work with V. Marsault.
- [44] On subtrees of the representation tree in rational base numeration systems,
Discrete Mathematics & Theoretical Computer Science **20**, 2018, . Joint work with S. Akiyama and V. Marsault.

2.— Proceedings of international conferences

- [45] Langages algébriques déterministes et groupes abéliens, in *Automata Theory and Formal Languages, 2nd G.I. Conference* (K. Weihrauch, ed.), LNCS 33, 1975, 20–30.
- [46] Sur les monoïdes syntactiques des langages algébriques déterministes, in *Automata, Languages and Programming, 3rd International Colloquium* (S. Michaelson, R. Milner, eds), Edinburgh University Press, 1976, 52-65.
- [47] An algebraic framework for the study of the syntactic monoids; application to the group languages, in *Proc. of MFCS’76* (A. Mazurkiewicz ed.), LNCS 45, 1976, 510–516.
- [48] Sur les groupes infinis, considérés comme monoïdes syntaxiques des langages formels, in *Séminaire d’Algèbre Paul Dubreil*, Lecture Notes in Mathematics 586, 1977, 168–179.
- [49] On deterministic commutative context-free languages, in *Proc. of a Conference on Theoret. Comput. Sci.*, Waterloo University, Canada, 1977, 88-93.
- [50] A theory of syntactic monoids for context-free languages, in *Information Processing 77, Proc. of IFIP Congress 77*, North Holland, 1977, . Joint work with J.F. Perrot.

- [51] Un théorème de transversale rationnelle pour les automates à pile déterministes, *in Proc. of the 4th G.I. Conference on Theoret. Comput. Sci.* (K. Weihrauch ed.), LNCS 67, 1979, 276–285.
- [52] Sur la définition du produit en couronne, *in Codages et Transductions* (G. Pirillo ed.), Institut U. Dini, Florence, C.N.R., 1979, 285–299.
- [53] Pushdown automata with terminal languages, *in Languages and Automata Symposium*, Publication du RIMS 421, Kyoto University, 1981, 15–29.
- [54] Some operations and transductions that preserve rationality, *in Proc. of the 6th G.I. Conference on Theoret. Comput. Sci.*, LNCS 145, 1982, 277–288. Joint work with J.E. Pin.
- [55] Recent results in the theory of rational sets, *in Proc. of MFCS'86*, LNCS 233, 1986, 15–28. Joint work with J. Berstel.
- [56] One-sided Dyck reduction over two-letter alphabet and deterministic context-free languages, *in Proc. of MFCS'86*, LNCS 233, 1986, 554–563. Joint work with F. Romian.
- [57] Kleene's Theorem revisited, *in Trends, Techniques and Problems in Theoret. Comput. Sci.* (A. Kelemenova, K. Kelemen eds), LNCS 281, 1987, 39–50.
- [58] Rational relations with bounded delay, *in Proc. of STACS'91* (M. Jantzen ed.), LNCS 480, 1991, 50–63. Joint work with Ch. Frougny.
- [59] The “last” decision problem for rational trace languages, *in Proc. of LATIN 92* (I. Simon ed.), LNCS 583, 1992, 460–473.
- [60] From the Fibonacci numeration system to the golden mean base and some generalizations, *in Proc. of a Conference on Power Series and Algebraic Combinatorics* (A. Barlotti, M. Delest, R. Pinzani, eds.), Firenze, 1993, 231–244. Joint work with Ch. Frougny.
- [61] On the lexicographic uniformisation of deterministic 2-tape automata, *in Proc. of IFIP Congress'94, vol. I* (B. Pehrson, I. Simon, eds.), Elsevier Science (North Holland), 1994, 485–490. Joint work with M. Pelletier.
- [62] The finite power property for rational sets of the free group, *in Idempotency* (J. Gunawardena, ed.), Cambridge University Press, 1998, 80–87. Joint work with F. d'Alessandro.
- [63] The Schützenberger construct and two applications, *in Proc. of the Conference on Semigroups and Applications, St Petersburg, 1995* (S. Kublanovskiy, A. Mikhalev, J. Pionizovskii, P. Higgins, eds.), TPO Severny Ochag, 1999, 331–356.
- [64] A rewrite system associated with quadratic Pisot unit, *in Proc. of Rewrite Techniques and Applications 99* (P. Narendran, M. Rusinowitch eds.), LNCS 1641, 1999, 356–370. Joint work with Ch. Frougny.
- [65] Squaring transducers, *in Proc. of LATIN 2000* (G. Gonnet, D. Panario eds.), LNCS 1776, 2000, 397–406. Joint work with M.P. Béal, O. Carton and Ch. Prieur.
- [66] Star height of reversible languages and universal automata, *in Proc. of LATIN 2002* (S. Rajsbaum, ed.), LNCS 2286, 2002, 76–90. Joint work with S. Lombardy.
- [67] Derivation of rational expressions with multiplicity, *in Proc. of MFCS 2002* (K. Diks, W. Ritter, eds.), LNCS 2420, 2002, 471–482. Joint work with S. Lombardy.
- [68] Introducing Vaucanson, *in Proc. of CIAA 2003* (O. Ibarra, Z. Dang, eds.), LNCS 2759, 2003, 96–107. Joint work with S. Lombardy, R. Poss and Y. Régis-Gianas.
- [69] On the star height of rational languages, a new presentation for two old results, *in Words, Languages & Combinatorics III* (M. Ito, T. Imaoka, eds.), World Scientific, 2003, 266–285. Joint work with S. Lombardy.

- [70] How expressions can code for automata, in *Proc. of LATIN 2004* (M. Farach-Colton, ed.), LNCS 2976, 2004, 242–251. Joint work with S. Lombardy.
- [71] The rational skimming theorem, in *Proc. of Mathematical Foundations of Informatics, Hanoi 99* (M. Ito, Do Long Van eds.), World Scientific, 2005, .
- [72] On the equivalence of \mathbb{Z} -automata, in *Proc. of ICALP 2005* (L. Caires et al., eds.), LNCS 3580, 2005, 397–409. Joint work with M.-P. Béal and S. Lombardy.
- [73] The Language, the Expression and the (small) Automaton, in *Proc. of CIAA 2005* (J. Farré et al. eds.), LNCS 3845, 2005, 15–30.
- [74] Inside Vaucanson, in *Proc. of CIAA 2005* (J. Farré et al., eds.), LNCS 3845, 2005, 116–128. Joint work with Th. Claveirole, S. Lombardy, S. O’Connor and L.-N. Pouchet.
- [75] On the representation of numbers in a rational base, in *Proc. of Words 2005* (S. Brlek, Ch. Reutenauer, eds.), Monographie du LaCIM 36, 2005, 47–64.
Joint work with S. Akiyama and Ch. Frougny.
- [76] Conjugacy and equivalence of weighted automata and functional transducers, in *Proc. of CSR 2006* (D. Grigoriev et al., eds.), LNCS 3967, 2006, 58–69.
Joint work with M.-P. Béal and S. Lombardy.
- [77] Finite automata and the writing of numbers, in *Proc. of DLT 2007* (T. Harju et al. eds.), LNCS 4588, 2007, 29–30.
- [78] On the cost and complexity of the successor function, in *Proc. of WORDS 2007* (P. Arnoux, N. Bédaride, J. Cassaigne, eds.), (CIRM, Luminy, Marseille), 2007, .
Joint work with V. Berthé, Ch. Frougny and M. Rigo.
- [79] On the decomposition of k -valued rational relations, in *Proc. STACS 2008* (S. Albers, P. Weil, eds.), , 2008, 621–632. Joint work with R. de Souza.
- [80] On the decidability of bounded valuedness for transducers, in *Proc. MFCS 2008* (E. Ochmanski, J. Tyszkiewicz, eds.), LNCS 5162, 2008, 588–600.
Joint work with R. de Souza.
- [81] An XML format proposal for the description of weighted automata, transducers and regular expressions, in *Post-Proc. FSMNLP 2008* (J. Pikorski, B. Watson, A. Yli-Jyrä, eds.), IOS Press, 2009, 199-206.
Joint work with A. Demaille, A. Duret-Lutz, F. Lesaint, S. Lombardy, F. Terrones.
- [82] Radix cross-sections for length morphisms, in *Proc. of LATIN 2010* (A. Lopez-Ortiz, ed.), LNCS 6034, 2010, 184–195. Joint work with S. Lombardy.
- [83] On the enumerating series of an abstract numeration system, in *Proc. Journées Montoises 2010*, Univ. Amiens. hal-00617617. Joint work with P.-Y. Angrand.
- [84] The Removal of Weighted ε -Transitions, in *Proc. of CIAA 2012* (N. Moreira, R. Reis, eds.), LNCS 7381, 2012, 345–352. Joint work with S. Lombardy.
- [85] Ultimate periodicity of b-recognisable sets: a quasilinear procedure, in *Proc. of DLT 2013* (M.-P. Béal, O. Carton, eds.), LNCS 7907, 2013, 362–373. Joint work with V. Marsault.
- [86] Implementation concepts in Vaucanson 2, in *Proc. of CIAA 2013* (S. Konstantinidis, ed.), LNCS 7982, 2013, 122–133. Joint work with A. Demaille, A. Duret-Lutz and S. Lombardy.
- [87] Auto-similarity in rational base number systems, in *Proc. of WORDS 2013* (J. Karhumäki, A. Lepistö, L. Zamboni, eds.), LNCS 8079, 2013, 34–45. Joint work with S. Akiyama and V. Marsault.

- [88] On sets of numbers rationally represented in a rational base number system, *in Proc. of CAI 2013* (T. Muntean, D. Poulakis, R. Rolland, eds.), LNCS 8080, 2013, 89–100. Joint work with V. Marsault.
- [89] A type system for weighted automata and rational expressions, *in Proc. of CIAA 2014* (M. Holzer, M. Kutrib, eds.), LNCS 8597, 2014, 162–175. Joint work with A. Demaille, A. Duret-Lutz, S. Lombardy, L. Saiu.
- [90] Breadth-first serialisation of trees and rational languages, *in Proc. of DLT 2014* (A. Shur, M. Volkov, eds.), LNCS 8633, 2014, 252–259. Joint work with V. Marsault.
- [91] Trees and languages with periodic signature, *in Proc. of LATIN 2016* (E. Kranakis, G. Navarro and E. Chávez, eds.), LNCS 9644, 2016, 605–618. Joint work with V. Marsault.
- [92] Two Routes to Automata Minimization and the Ways to Reach It Efficiently, *in Proc. of CIAA 2018* (Cezar Câmpeanu, ed.), LNCS 10977, 2018, 248–260. Joint work with S. Lombardy.

3.— Theses, edition, miscellaneous

- [93] Monoïdes syntaxiques des langages algébriques, Thèse 3ème cycle Math., Univ. Paris 7, 1976.
- [94] Syntaxe des langages de Chomsky, Thèse Sci. Math., Univ. Paris 7, 1979.
- [95] Deux expériences de mise au point interactive de programmes de commande numérique: Vulcain et Promog, *in Revue du GAMI*, 1979. Joint work with J.P. Crestin, G. Gras, J. Péchaud.
- [96] L’informatisation de la recherche publique en France, annexe du rapport *Informatisation de la France*, Agence de l’Informatique, 1986. Excerpts reprinted in *Sciences & Techniques* **24** and **25**, 1986.
- [97] Guest-Editor pour: “Theoretical Computer Science, Algebra and Combinatorics”, special issue of *Theoret. Comput. Sci.* **72**, 1990.
- [98] Editor pour: “*Finite-State Methods and Natural Language Processing*”, Post-Proceedings of the 8th Workshop FSMNLP 2009, Pretoria, LNCS 6062, 2010. Joint work with A. Yli-Jyrä, A. Kornai, B. Watson.
- [99] Guest-Editor pour: “Finite State Methods and Models in Natural Language Processing”, special issue of *J. of Natural Language Engineering* **12**, 2011. Joint work with A. Yli-Jyrä, A. Kornai.
- [100] On the Minimal Uncompletable Word Problem, *CoRR* (2010)
<http://arxiv.org/abs/1002.1928>. Joint work with G. Fici, E. V. Pribavkina.

4.— Softwares

- [101] $\overline{\text{VAUCANSON-G}}$, \LaTeX macro package for automata and graph drawing (2002-2008). Version 0.4 archived on CTAN and included in current distributions of \LaTeX . Downloadable from <http://www.enst.fr/~jsaka>. Joint work with S. Lombardy.
- [102] VAUCANSON, C++ platform for automata and transducers computation (2003–2011). Downloadable from <http://www.enst.fr/~jsaka>. Joint work with S. Lombardy and the Vaucanson Group from EPITA.
